

Products and Pricelist 2020

Version 24-2-2020 Prizes may change.

Check our website too!!

www.africanrootsplants.nl

We are situated on the Highlands in Kenya, at Ol'Kalou.

Our farm is fully equipped for the production of cuttings.

At an altitude of 2600 meters, the climate is perfect for high quality products.

Mild temperatures in the day time (20-25 C) and cool nights (5-8 C)

And , 12 hours intens sunlight per day!

We produce 3 main groupes of cuttings;

1 BEDDING PLANTS

2 PERENNIALS

3 GRASSES

After harvesting, the cuttings will be selected on size.

The unrooted cuttings are ready for immediate shipment.

In case the costumer requires rooted cuttings, the plants will be placed in a tray for further cultivation.

Because of the favorable temperatures and light intensity, the quality of the plants is very good.

After some weeks the plants are put together, packed in firm boxes and get ready for shipment.
